**Class Differentiation**

**PREVOST®**

# GOING WITH THE WINNING COACH!

## PREVOST H-SERIES

### ALWAYS HOME ON THE ROAD

From their launch, Prevost H-Series premium touring coaches were acclaimed as a quantum leap in passenger comfort and safety. Being the tallest of North-American coaches, Prevost H-Series coaches cast the most impressive public image. Prevost H3-45 coaches boast the industry's largest under-floor storage space (470 ft³) to accommodate more sports gear, luggage or instruments than any other coach. Inside, the Prevost H3-45's wedge-shaped overhead parcel bins provide unobstructed panoramic viewing and all the room 56-58 passengers need for carry-ons.

### Proven Engine with Improved fuel efficiency

The Volvo D13 engine is the only EPA 2010 engine that uses an existing platform, so it is the only engine platform that has been tested with years of real-world road conditions. Volvo engineers created this system to deliver near-zero emissions of particulates and nitrogen oxide (NOx) so that particulates are captured and the NOx is converted to harmless water and nitrogen gas. This well-tested D13 provides superior low-end performance, smooth, quiet operations and outstanding fuel economy.

Prevost's care for the environment supports our long-standing policy of conserving energy and protecting natural resources. Volvo's D13 engine adheres to this philosophy, drastically lowering emission of air pollutants, with better performance and lower fuel consumption.

Prevost holds an 80-year winning streak for producing premium touring coaches. Prevost coaches provide your team with the latest in ergonomics and materials to support your most ambitious moves. Prevost leads the way with proven product dependability, most efficient after-sales support and the industry's best warranty. For all sports and academic activities go first class with Prevost.

## PREVOST X3-45

### PROVEN DESIGN WITH UNIQUE STYLING

The Prevost X3-45 coach stands out with its unique styling. Its proven silent workhorse performance lets passengers fully enjoy the hallmark riding stability and roof-wrapping panoramic viewing. The X3-45 coach has the lowest overall height of any premium intercity coach for universal access to restricted load/unload locations. Yet it has the tallest floor-to-ceiling height (80 inches), the widest access door in the industry (30 inches) and the shortest entrance stairway, for upper class travel environment.

**THAT IS**  
good for the environment,  
good for the university,  
good for the future.

# PREVOST SERVICE NETWORK

Prevost has the largest service network of any coach manufacturer in North America including seven Prevost Service Centers and more than 138 Prevost-trained and Prevost-certified Service Providers. Our service personnel are skilled specialists. They're certified for bumper-to-bumper maintenance and repair and they are recognized for their extensive training and job tenure. They are informed on the technical advances that will keep your coaches on the road and on schedule.

Additionally, supported with Prevost Action Service System (PASS) you will have 24/7 access to immediate call center assistance. PASS is a value-added Prevost program designed to help you manage your fleet more effectively. PASS offers many services, including finding the nearest qualified road service, securing emergency maintenance assistance and towing, scheduling emergency service appointments, ordering parts, and helping with warranty claims paperwork.

Prevost's after-sales service and support keeps your coaches on the road no matter where your trips may take you.
