

PREVOST.

THE ULTIMATE EXPERIENCE

COMFORT AND STYLE EXCLUSIVELY

CLOUD ONE SEATING

For an ultimate experience, passengers require seating with style and comfort combined with uncompromising safety. Prevost's Cloud One seating is the solution.

Cloud One is designed for the North American market and includes greater ergonomic functionality, which provides enhanced lumbar along with head and neck support.

The back of the seat integrates the ultimate development of foams to serve as an impact absorber for the passengers in the event of frontal crash.

SEATING TO FIT PASSENGERS IN THE NORTH AMERICAN MARKET

Cloud One, Prevost's exclusive seat, brings the style and comfort demanded by the North American passenger. Prevost has combined premium materials, accents, stitching and piping to give every seat option a stylish look and feel.

Extensive research was conducted through workshops with real passengers to determine preferences in a comprehensive list of comfort attributes including seating height, cushion firmness, foam locations and seat belt placements.

Cloud One combines comfort and style with safety. The upright position is comfortable. Headrest and seat belt locations are adjusted to accommodate even tall passengers while avoiding back and shoulder discomfort.

With great lumbar support and an adjusted seat pan, passenger fatigue is reduced during long trips. Cushion backrests and headrests are made from fire retardant and high resilient polyurethane foam for enhanced safety and durability.
